

## Guidance for Rock Art Mug Boards

A Mug Board should be included in each photograph to make the photo reasonably self-documenting, minimizing the need for captioning in the report.

Mug Boards should include the following:

- Project Name
- LA #
- Provenience
- Photo Number
- Date
- Metric Scale

The Mug Board should be positioned near – but not blocking -- the glyph or panel. The photograph should be framed as closely as possible to get the whole board and glyph/panel into the picture, while eliminating peripheral materials.

Some Mug Board Examples:

Cardboard Front View

Cardboard Rear View  
Showing photo number storage

Plastic Mug Board
